Classroom Highlights

6th-8th Grade Classroom

K-2nd Grade Classroom

We started the chapter about animals in Science. It's been exciting to learn about the many special animals God made. I am planning a field trip to Sea World after we complete this Science unit. I will give you more details once I confirm the price and date of our field trip. In the meantime, please refer to the volunteer email I sent early this school year so you can complete the volunteer/chaparone requirements if you would like to attend the field trip.

In Bible class we learned about the story of Abraham and how God led him on a long journey to many places. We learned of the three promises God made to Abraham and the special miracle He gave to Abraham and Sarah! We will continue down the family tree and learn about Isaac in our next Bible unit.

It was great to be back from the break and seeing all our wonderful students' faces. This week we hit the ground running academically and musically. I am very proud of the way we continued to do our work and how amazingly they performed in the recital. Next week we will be having tests for math and science.

Speaking of science, our class plants have all finally come to pass, meaning, unfortunately, no tomatoes for any of us. But, despite that we carry on, this time with more seasonally appropriate plants (beet and broccoli) and a greater methodology. We covered in class the difference between Independent, Dependent, and Control variables, which we will put to use and hopefully be fruitful this yield. Here is a picture of them, each holding their two plants right before we put them into different locations to measure the effects of sunlight on them.

Our Christmas Program was a Great Success!

Thank you for coming out and supporting our students.

2024-2025 Chapel Theme & Verse

**Be brave.
Be strong.
Be fearless.
You are never alone!**

Have I not commanded you?
Be strong and courageous. Do not be afraid; do not be discouraged, for the Lord your God will be with you wherever you go.
