Greetings LNJA Family,

As the cold weather is beginning to approach, please make sure your student is wearing a **solid navy blue** jacket, sweater, or sweatshirt. We need to make sure that our students are still following the dress code during the colder seasons. Thank you so much!

### Kindergarten-2nd Grade

We are continuing our journey of learning all of the Fruit of the Spirit! The third Fruit of the Spirit we focused on was PEACE! Please ask your students why we don't have to worry and can have peace in our lives! We have completed our Social Studies unit about how to be a good citizen. We will begin another Science unit on "Plant Secrets".

### Grades 3-5

I cannot believe it's already the 7th week of school! That leaves us with only three weeks left of Q1. To wrap up the quarter, students will be presenting a How-To Speech for their language arts program. Their homework this week was to run their idea by you as you will be providing the ingredients and materials for their speech. If you haven't heard anything from them, please ask them what their idea is and see where they need help. I'm looking forward to seeing you all at beach vespers this Friday. Have a great weekend! Blessings, Mrs. Moningka

### SAVE THE DATE ~

### Saturday, December 2, 2023 @ 6pm (LNSDA Church)

We (grades 6-8) are excited to be hosting a benefit concert featuring Jaime Jorge, violinist. You will not want to miss this concert of incredible music! Proceeds will go to our outdoor school field trip week and some to classrooms.

### Grades 6-8

Mining and Railroads in the West, ranchers and farmers, Native American Struggles, and Framers- a new political force of 1858-1896 are the topics we are learning about in social studies. Did you know that long horn cattles horns can be up to 8 feet wide and they can weigh as much as 1,500 pounds! That's half the weight of a car! In math we are learning to use prime factorization to find the lowest common multiple, adding and subtracting integers, and solving algebra equations. Can you solve these problems?

October 6, 2023

1.  $\frac{1}{6}d + \frac{2}{3} = \frac{1}{4}(d-2)$
2. Write and solve an equation to find the number of miles you must drive to have the same cost for each of the car rentals.

Car # 1. \$20 plus \$.50 per mile

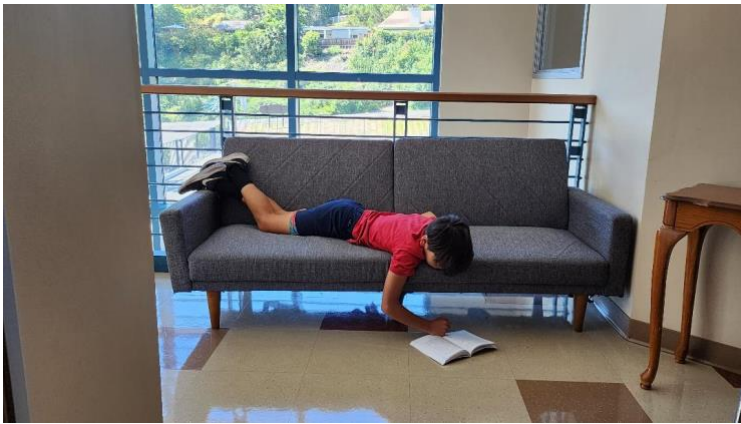

Car # 2. \$30 plus \$.25 per mile

Enjoy your weekend and have a Happy Sabbath! – LNJA
